THE SUPER-SLACKER

If you're feeble and too fat
For to wear a soldier's hat,
(If you're not, of course we wish to
beg your pardon)
If you cannot tote a gun
For to disclimate the Hun,
Then at least you're busy in the gar-
den.

Already you have made
Quite a rumpus with the spade,
Tho you ache in many places 'till
you're steele,
There are blisters on your mitt,
But you knew you'd done your bit
And you're feeling rather happy and
heroic.

On the other hand if you
Haven't tried to do
All you might altho you suffered a
convulsion,
If you haven't when you know
Men are needed at the Hoc,
You're a slacker of the very worst
description!

ing relatives in Lexington, Ky.

WHERE'S THE RIGHT?

In responding to a call for a police-
man an automobile with an officer in
it went east over Third street last
evening about 7 o'clock at a forty-mil-
le-an-hour clip, and instead of approach-
ing the corner to turn into Bridge
street at a sensible speed, the machine
was let go at its terrific speed and so
great was its momentum that it skidded
almost into the L. & N. depot. Had
anyone attempted to cross the street
at that time there would undoubtedly
have been a killing. But what was
started to say was, what right has an
officer to violate the law at a public
street corner and jeopardize human
lives?

MEETING OF ENCAMPMENT

Plague Encampment, I. O. O. F., will
meet this evening at 7:30 o'clock. All
members urged to attend.

GEORGE SCHWARTZ,
Chief Patriarch.

GEORGE WELSH COCHRAN

Six-Year-Old Son of Mr. and Mrs.
W. D. Cochran Fatally Injured in
Fall From Balustrade at His
Home Yesterday Morning.

All of Maysville was shocked and
deeply grieved last night when it was
learned that George Welsh Cochran
the bright little 6-year-old son of Mr.
and Mrs. William D. Cochran, of East
Second street, had died from injuries
received when he fell from the balu-
strade on the second floor of the hall
to the floor beneath at his home yester-
day morning.

The dreadful accident happened
about 11:15 o'clock Sunday morning.
George and his younger sister, Kath-
ryn, had returned from Sunday School.
The rest of the family were attending
services at the First Presbyterian
Church. The children were taken up
stairs by their nurse, who changed
their clothes and then brought them
down to the first floor. She then went
to another part of the house to attend
to some of her duties. As soon as she
left George reascended the steps and
when he got to the top climbed up
onto the balustrade and attempted to
walk on it.

Soon afterward the nurse heard a
dull thud in the hall and hurrying in
found the young man lying there un-
conscious. A few minutes later he was
examined and found that the little
fellow was seriously injured. He was
hurried from the house to summons aid.
Mrs. Robert A. Cochran and Mrs.
John Cochran, relatives of the boy,
were driving down Second street in a
machine and were halted. About the
same time Mr. W. D. Cochran and his
daughter, Miss Ellen, who had be-
come ill while at church, drove up in
Mr. Thomas A. Duke's car. All im-
mediately rushed into the house and
Mrs. A. O. Taylor and Woodson H.
Taubee were called in. It was dis-
covered that the fall of about four-
teen feet the little fellow had broken
his collar bone and that his skull was
fractured, besides being bruised about
the face.

The doctors did all that medical skill
was capable of but the child never re-
gained consciousness and died at 5:45
o'clock yesterday afternoon.

The sympathy of the entire com-
munity goes out to the bereaved fam-
ily in its sudden loss of the little one,
who was so well liked by everyone be-
cause of his bright face and cheerful
disposition.

Born in Maysville on October 31,
1910, George Welsh Cochran would
have been 7 years old had he lived un-
til his next birthday. Besides his father
and mother he is survived by four
sisters, Misses Ellen, Zoraya, Frances
and Kathryn, and one brother, Wil-
liam.

The funeral services will be held
from his late home tomorrow morning
at 10 o'clock with services by Rev.
John Barbour, pastor of the First
Presbyterian Church. Interment in the
family lot in the Maysville cemetery.

BE ON HAND

Saturday Next at Sale of the Mays-
ville Coal Co.'s (Godfrey Hunsle-
er, Deceased.) Real Estate.

In the forenoon, beginning at 10
o'clock, there will be sold four and a
fractional lots, a good garden spot,
in Sixth Ward, at head of Cottage
street. Then lot No. 20 on Cottage
street, near the above lots; a good
building lot. Then six lots on Rogers,
Wall and Smoot's addition to Chester,
South of Forest avenue, each fronting
Clarke street; good building lots and
garden. Also two lots on the plat of
Eastland, fronting Buckner street. And
two lots on the plat of Culbertson,
fronting Pelham street. These lots
will be sold on the premises and fol-
lowing in the order given here.

Then in the afternoon, beginning at
2 o'clock, and on the premises, the
Coal Yard Property, situated on the
South East corner of Second and
Union streets, will be sold. This prop-
erty has been platted and will be sold
in lots. There are two lots fronting
Second street, two 50 feet and ten 33
feet each and they all run back 120
feet to an alley laid off through said
plat of ground. On said lot No. 1 is
the coal office and scales. The office
and scales will be sold separate and
apart from the lot. On said lot No.
11 is the residence, a new modern
frame house of seven or eight rooms,
with bath, gas, electricity, and heated
by furnace. Then the lot in rear of
the above lots, suitable for coal yard,
lumber yard or any kind of industrial
business, on which is warehouses, at-
tached crib and other buildings. This
property is the best proposition for
money making in Maysville today.

Be on hand and buy some of this
real estate. It is the best located
property in the city and will make
money for any one who buys.

Terms made known on day of sale.

EXEMPTION BOARD

May Begin Duties Within Ten Days—
Cards Notify All in Double
Quota.

"What next?" is the question now
most vital to the man who was ac-
cused in the drawing for the new
army.

If he is physically able, and is not
situated, either by reason of depend-
ents or the nature of his employment
that the government will not accept
him, and is willing to serve where his
country calls, there is nothing new to
do but to wait the summons beneath
the flag.

The man who is to be exempted has
several things to do; the slacker and
the coward has a hard row to hoe.

The various exemption boards are
not yet prepared for the process of
wooding out those who ultimately will
represent Masen county in the legions
to give much, perhaps all, that the
world "may be safe for democracy."

As soon as they receive the ne-
cessary blanks, affidavits and so on,
and are fortified with the final instruc-
tions for their procedure, the boards
will meet and begin the work. It is
expected that ten days will elapse be-
fore the official lists of those drafted
in the first allotment are received by
the district exemption boards.

As soon as these are received each
man who has been selected in the
double quota will receive a card notifi-
fying him officially of his selection and
fixing the date of his appearance be-
fore the board, although a mere post-
ing of the names of those drafted con-
stitutes sufficient notification under the
law. The man so notified then must
appear before the board on the date
named and be physically examined.

This examination will follow the
general lines of the new physical re-
quirements for the regular army. If
he is physically unfit for military ser-
vice he will be discharged. Two doc-
tors, acting independently and without
knowledge of the other's findings,
must concur in the opinion that the
subject is physically disqualified. The
government may appeal this decision
at any time and have regular army
doctors pass on the case.

If the man is found physically fit
and qualified and the man is not dis-
charged or exempted for other rea-
sons, his name later will be posted as
one of those accepted for military ser-
vice, and when the call to colors
comes he must report at the specified
mobilization camp.

In the case of Kentucky men this
will be at Camp Taylor. If the man
has a claim for exemption or discharge
he must file that with the district board
seven days after the date of the notice
that called him for physical examina-
tion, not seven days after the date up-
on the notice. He then has ten days
in which to file affidavits supporting
this claim, the blanks to be furnished
by the board. The board will endeavor
to pass upon each case three days
after the affidavits are received. If the
claim is allowed the man is given a
certificate of exemption or discharge,
but this becomes inoperative whenever
the conditions upon which it was
granted cease to apply.

If his claim for exemption is not
supported, he is posted as one qual-
ified for service and the man then
has three days in which to appeal to
the district exemption board. If that
body does not allow his appeal he can
appeal to the President and if the
President turns him down, he has
nothing to do then but kiss his re-
latives good-bye.

Claims for either discharge or ex-
emption can be filed either by the man
himself or by another person, affect-
ed by his being called, such as his
wife or mother.

Mr. and Mrs. Horace J. Cochran and
son, Horace, spent Sunday in Lexing-
ton, returning this morning.

KENTUCKY CONFERENCE

Of Methodist Episcopal Church To Be
Held Here Latter Part of August
Instead of at Somerset—Plans
Changed Yesterday.

Owing to the fact that Somerset has
recalled its invitation, the annual
meeting of the Kentucky Conference
of the Methodist Episcopal Church
will be held in this city beginning
Monday, August 27, and lasting for
eight days.

Rev. S. K. Hunt, pastor of the Third
Street M. E. Church, yesterday re-
ceived word from Bishop William H.
Anderson saying that Somerset had
backed down on its invitation for Con-
ference to meet there and asked if
the Third Street M. E. Church would
not help him out of a difficult situa-
tion by extending an invitation for
Conference to be held here. Rev. Hunt
immediately called his Official Board
together and it was decided to extend
the invitation.

This is the first time the Kentucky
Conference has been held in this city
for eight years. The people of Mays-
ville should feel doubly honored this
year as they also have the State Sun-
day School Convention in October.

"THE GHOST OF OLD MORRO"

In line with their policy of present-
ing to the public the best in photo-
dramas, Edison has released through
K. E. S. E. Service "The Ghost of
Old Morro," a story of unusual merit,
to be shown at the Pastime Theater
today.

Mabel Trunnelle plays the stellar
role in the characterization of a
charming Spanish girl who is being
reared in a convent, where her moth-
er in league with smugglers, placed
her in order that she should grow up
in an atmosphere and environment
different from that which she would
receive at her mother's inn. Fate de-
creed, however, that she should tread
the path that all others had who were
unfortunate enough to fall into her
mother's power. This creates many
unusual situations and gives the tal-
ented cast opportunities to display
their skill.

Robert Connors, co-star in "The
Ghost of Old Morro," is supported by
Helen Strickland, Herbert Prior, Big-
low Cooper and many more noted Ed-
ison stars.

FOR A STRONGER CABINET

Mr. Hening reports from administration sources that the president intends to take action restricting the activities of the advisory commission of the council of national defense, who, it is intimated, are trying to get "fancy prices for the war supplies furnished by their own and other companies in each line of business."

The report is interesting. No one but Mr. Wilson himself is responsible for the personal of the advisory commission, and we should be sorry to find that, because his selections were poor, if they were poor, we must find ourselves at the very beginning of the war, when cooperation and harmony are so necessary, plunged into an inter-governmental row promising a maximum of demagogic opportunity, sensational charges, injustice, and perhaps destructive legislation.

So far as can be inferred from what has escaped into print the row is between Mr. Wilson's cabinet heads, or Mr. Daniels only, perhaps, and the advisory commission. The council, or part of it, in other words, does not like the advisers Mr. Wilson has given it. We must wait for further enlightenment, but in the meantime we are not inclined to side in advance with Mr. Daniels or other members of Mr. Wilson's cabinet against the advisory commission selected by Mr. Wilson, even though some of them or all may be industrial magnates. Mr. Wilson is in the unfortunate position of having surrounded himself with an official household by no means up to the standard required by these tremendous times, and we hope that he will not engage in a domestic quarrel in his own official family when he can probably correct whatever evils have arisen and establish public confidence by strengthening his corps of advisors.—Chicago Tribune.

FEEDING A VAST ARMY

An announcement from Washington appears to mean that the government has now contracted for practically all the supplies that will be required to ration the 1,000,000 troops during the coming year. This includes, according to the announcement, everything from beef to shoestrings and from cots to candy. Two hundred thousand pounds of fresh beef is one item and besides that there is canned corn and canned roast beef totaling nearly 8,000,000 pounds more, without including the canned corned beef hash.

The canners of the country have been requested to reserve for the use of the army and the navy 18 per cent. of the 1917 output of canned tomatoes, 12 per cent. of the canned corn, 12 per cent. of the canned peas and 9 per cent. of the canned salmon. All told 343 different items of supplies appear in the list of rations for issue and sale of clothing and equipment.

From these figures it is evident that this country intends to have a vast army in France in 1918. No other presumption can be raised from the totals being reserved for the army and navy. Nearly one-fifth of all tomatoes canned, more than a ninth of the corn and peas canned and an eleventh of the salmon would indicate the feeding of a large number of human beings, certainly a vast army.

DEMOCRACY AS JUSTICE

Senator Lewis of Illinois is opposed to any kind of a Federal investigation of the recent deplorable race riots at East St. Louis. Any procedure of that sort, he avers, would cause the negroes to think the government is behind them. Of course that would never do. Evidently Senator Lewis thinks no negro is entitled to feel that the government is behind him. Whenever the Democrats of the South attempt and succeed in depriving the negro of his right to vote—though religiously counting him to enable the whites to secure a swollen and a stolen strength in Congress and in the electoral college—the motto of the Federal government should be "Hands off!" lest the defrauded negro should think that the government is behind him. So, too, when negroes come North and go to work they should be mobbed and killed by any one who feels so inclined, even though the colored man has deprived nobody of a job and does his work well. Senator Lewis is the Democratic whip of the Senate; he doubtless voices the opinion of his party in declining against any action to cause the negro to think that there is a government to which appeal can be made.

LIMIT YOUR FOOD

The following pledges are soon to be distributed throughout the country for signatures. Everybody is asked to help conserve the food supply of the nation:

1. To eat one wheatless meal a day.
2. To eat beef, mutton or pork not more than once a day.
3. To economize in the use of butter.
4. To limit my daily allowance of sugar in tea or coffee and in other ways.
5. To eat more vegetables, fruit and fish.
6. To urge in my own home or the restaurants I frequent the necessity of economy.

Don't sign it unless you intend following it. Showy patriotism will help very little.

THE POLITICS OF GERMANY

The demand of the German Socialist, Erzberger, that the imperial chancellor declare against indemnities and annexations at the conclusion of the present war has caused a storm in German political circles, which Americans can little appreciate.

While government officials at Washington seem inclined to consider the outbreak as due to internal politics it is a fact that the combination of several political parties in the Reichstag are about to force the government to define itself on foreign policies in conformity with their idea of what that policy ought to be.

This in itself, is a sign of the times!

If all the bad things the navy department says about Newport are true the other summer resorts along the Atlantic coast will have to add some new features or Newport will draw the crowds.

Judging by the reports received from Washington the last few days the "suff" pickets are trying to beat the I. W. W. agitators out of the reputation of being the great American nuisance.

CRYING FOR HELP

Lots of It in Maysville But Daily Growing Less.

The kidneys often cry for help. Not another organ in the whole body more delicately constructed; Not one more important to health. The kidneys are the filters of the blood.

When they fail the blood becomes foul and poisonous. There can be no health where there is poisoned blood.

Backache is one of the frequent indications of kidney trouble. It is often the kidney's cry for help. Heed it.

Read what Doan's Kidney Pills have done for overworked kidneys. Read what Doan's have done for Maysville people.

Mrs. E. Spahr, E. Second and Walnut Sts., Maysville, says: "Whenever I have heard anyone complain of their kidneys, I have never seen Doan's Kidney Pills fail to help them. I have been greatly benefited by them myself. At times, my back has ached and I have suffered from lameness through the small of my back. When I have been in that way, I have used a box or so of Doan's Kidney Pills, which I got at Chas. L. Drug Store. They have always quickly removed the trouble."

Mrs. Spahr is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you—don't simply ask for a kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that Mrs. Spahr had, the remedy backed by home testimony. 50c all stores. YELLOWSTONE'S CODY ENTRANCE

The Tourist Will See Picturesque Shoshone Dam, Largest in the World—Buffalo Bill's Old Home.

The eastern gateway to the Yellowstone National Park is called the Cody entrance, because at Cody, Wyo., the traveler leaves the train for a ride of sixty-three miles by automobile to the park boundary.

Cody was founded many years ago by the famous scout, the late Col. Wm. F. Cody, "Buffalo Bill," and is a typical western plains town. It is situated on a bench or shelf above the Shoshone River and below the tableland that stretches away toward the east. It is therefore invisible to the traveler on the roads from Thermopolis, Basin, Powell and other Wyoming towns to the eastward until he comes very near the limits of the town.

Leaving Cody for the trip to Yellowstone Park, the road leads into the Shoshone Gorge, across the Shoshone River, and thence to the Burlington station on the plain opposite the town. From here the road turns southwestward through the plains and runs for several miles through an arid, treeless waste. The sulphur mill on the east side of the river stands out prominently a short distance from Cody.

The wonders of the trip to the park begin with the entrance to the Shoshone Canyon, the stupendous gorge through which the Shoshone River takes its course. On the right lies Rattlesnake Mountain and on the left Cedar Mountain. The two constituted a single mountain until the river cut a deep, narrow gash through its center of solid rock. The walls of the canyon are nearly perpendicular, and yet along the face of Rattlesnake Mountain the Reclamation Service of the Department of the Interior blasted from the solid rock a splendid road eight miles long.

Great Engineering Feat

In many places the road passes through tunnels in the granite walls. This is the road that is traveled through the gorge and out to the park. The Government found it necessary to construct this road through the apparently inaccessible canyon in order to provide the means of transporting materials to construct the great dam of the Shoshone reclamation project. This dam is the second highest in the world, 328 feet from the lowest foundation to the top of the parapet, being 48 feet higher than the Flatiron Building in New York. At its base it is 108 feet thick up and down stream and only 80 feet long. On top it is 180 feet long and 10 feet thick.

The cost of its construction was \$1,350,585, but the value of the crops raised by the use of the stored water in 1916 was \$601,000 and only about one-sixth of the irrigable area was cropped last year. The irrigation system is being rapidly extended and several thousand acres will be thrown open to homesteaders during the autumn.

Leaving the dam, the road follows the shore of the beautiful Shoshone Lake which was formed by closing with the great wedge of concrete, the narrow gash in the rock walls of the canyon. Scientists state that this lake occupies the basin of an ancient body of water which existed thousands of years ago. Where this lake overflowed the water gradually wore a passageway through the solid granite mountain, and in the course of numberless centuries formed the Shoshone Gorge.

Wonders of the Gorge

At the upper end of the lake, the road turns into the Valley of the North Fork of the Shoshone River and skirts the summits of several ranches,

many of which are favorite resorts of the big game hunter. As the road continues westward beyond the ranch lands, a very mountainous region appears. The Shoshone National Forest is entered at a point where the valley suddenly narrows to a deep canyon. High mountains on each side of the river stand like huge sentinels at the gates of the forest.

Proceeding into the canyon, many wonderful natural features appear on every side. The mountains are composed principally of red sandstone and have been carved into a million fantastic shapes by wind and water erosion.

Signs attract the attention of visitors to the peculiarly shaped formations, the most interesting of which are Holy City, Chimney Rock, Clock Tower, Hole in the Wall, Dead Indian, Elephant's Head, Duck, Maimed Hand, and Pinnacle Point. As the park boundary is approached the mountains become more rugged and timber growth heavier. The principal species of trees are Douglas fir and Englemann spruce.

Just after crossing the Middle Fork of the Shoshone River and leaving it to the right, as the road proceeds up Middle Creek, Pahaska Topce is reached. This is an old hunting lodge built and owned for many years by Buffalo Bill, and is very beautifully situated in the forest. Supplies of various kinds may be obtained at this point.

Two and four-tenths miles farther up Middle Creek the park boundary at the Eastern Gateway is reached.

CANNED TOMATO SAUCE OR PUREE

Washington, D. C., July 28—Since tomatoes contain a very high percentage of water, it often is desirable to can only concentrated tomato products. This is true especially when cans or jars are difficult to obtain. A delicious concentrated tomato sauce may be made and canned as follows, says the United States Department of Agriculture. Small or broken tomatoes and large tomatoes unsuitable for canning whole, may be used in this recipe.

Cut the tomatoes into fairly small pieces and add one large-sized onion chopped and one cup chopped sweet red pepper to one gallon tomatoes. Cook until tender. Put through a sieve and add a mixture of 1/4 salt and 2-3 sugar in a proportion of one teaspoonful to each quart of the mixture. Cook until the consistency of Ketchup, stirring constantly. Pack hot into sterilized jars or bottles. Adjust rubber and cap—place the containers on a false bottom in a vessel of water sufficiently deep to reach almost to their top and allow to remain at a boiling temperature for 25 minutes. Remove jars from the water bath and tighten the lids immediately.

CORN CROP IN SOUTH INCREASES 21 PER CENT.

"The patriotic response of the South to the appeal for food and feed stuffs to meet the crisis brought about by the war is shown by the United States Agricultural Department's forecast of the yield of corn this year," says President Fairfax Harrison, of the Southern Railway System.

"For the State of Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Kentucky and Tennessee, this year's corn crop is estimated at 601,262,000 bushels, as compared with 495,236,000 bushels last year, showing an increase of 105,206,000 bushels, of 21 per cent."

Paris, July 20—Three French merchant vessels of more than 1,400 tons and two of less than that tonnage were sunk last week by submarines, the weekly official statement says. Four French merchantmen were unsuccessfully attacked.

BUY FLOUR IN SMALL QUANTITIES

Housewives Warned That Attempt to Hoard and Store Often Is False Economy.

Washington, D. C., July 28—Buy flour in small quantities and protect it carefully from spoilage, is the keynote of a suggestion from the United States Department of Agriculture.

Sound flour milled from standard wheat exhibits very little tendency to decompose when stored in a proper manner. Nevertheless, there is considerable loss of flour through spoilage as a result of improper storage, particularly during the summer months. Flour dealers naturally have to carry in storage an amount of flour proportionate to the current needs of their trade. Housekeepers on the farm and in the city should purchase flour in accordance with their needs only. It is false economy for the housekeeper to purchase large amounts of flour than can be used within a reasonable length of time. This may be a barrel for a large family; more often it will be the 50-pound sack. Any storage of flour in excess of the consumer's needs constitutes hoarding which, under present circumstances, is an unethical and reprehensible practice, of no profit to the individual who practices it, but injurious to the best interests of the people.

Since it is the duty of everyone in the present situation particularly to avoid all waste, it is incumbent upon each one so to store the normal stock of flour as to eliminate all waste whatsoever. The precautions that are required have been well worked out in practice and are stated as follows by specialists in the Department of Agriculture:

There are three cardinal principles of flour storage. Flour should not be stored in the cellar, since the cellar is rarely free from dampness, even though special flour bins have been built in. It is common to find odors in a cellar and flour absorbs odors and is contaminated by them. The cellar is cool, but is usually too damp. Flour should not be stored in the attic of the usual type. The temperature is too high in summer, there is no circulation of air, and the flour is likely to acquire a musty odor. Flour should not be stored in the pantry or kitchen except in small quantities since the temperature is certain to be uneven and the flour is likely to be contaminated by odors.

If practicable every household should possess a small room for storage of non-odorous commodities. Such a room is best located on the north side of the building. It should be ventilated and a cool and even temperature should be maintained where such a room is not available a closet may fit the requirements well. The bins or containers should be kept clean, and when an old stock of flour is exhausted, the container should be carefully cleaned before a new stock is placed.

Naturally the flour must be guarded from vermin. Flour should be examined occasionally to see that decomposition has not begun. Conserved in this manner, the sack of flour in the household and the larger stores of the retailer can be utilized practically to the exclusion of any waste through spoilage.

COMPLETE QUIET RESTORED IN PETROGRAD, DISPATCHES TO RUSSIAN EMBASSY SAY

Washington, D. C., July 20—Complete quiet has been restored in Petrograd and plans for the reconstruction of the Cabinet on the same basis of party representation as before the crisis are now under way, according to semi-official dispatches.

HOW TO CAN STRING BEANS

Washington, D. C., July 28—String beans for canning should be small, tender, fresh and well sorted. When the beans within the pod have grown to any size, canning is more difficult and the product of poorer quality from a commercial standpoint. String the beans and cut them into 2-inch lengths; cutting diagonally or "on the bias" gives a pretty product. In glass they may be canned whole, packed log-cabin fashion in square jars. Blanch in boiling water for 3 to 8 minutes or until the pod will bend without breaking, and plunge into cold water for an instant. Drain well, pack quickly, and cover with brine made by adding 2 1/2 ounces of salt to a gallon of water. Put the rubber in place and adjust the cap loosely. When the beans are young and tender allow packed quart containers to remain in water bath at boiling temperature 2 hours continuously, or, if more mature beans are packed an hour on each of three successive days. Immediately after sterilizing the filled jar tighten the cap securely and allow jars to cool away from any draught. Store in a cool, dry, dark place.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surface. Hall's Catarrh Medicine acts through the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, etc. F. J. CHENEY & CO., Toledo, O.

SUCCESSFUL WORK

Being Accomplished by Young Christopher Russell at Culver Summer Schools.

Mr. J. B. Russell has received the following letter regarding the work being done by his nephew, Master Christopher Russell, who is spending the summer at Culver Summer Schools.

July 20, 1917.

My dear Mr. Russell: I am pleased to report that your nephew, Christopher, is getting along successfully with his work in our woodcraft camp. He has entered quietly, but enthusiastically, into the many activities of the camp and is enjoying the summer. In academic work, he has one class in spelling in which he makes fair grades.

Christopher is tenting with John Peterson, a boy from Wilkesburg, Pa. The two boys are getting along well together, and one occasion were reported as having the neatest tent in their troop.

The boys returned two days ago from an over-night hike, where they lived out of doors and cooked their own meals. I believe Christopher thoroughly enjoyed the experience.

From time to time during the summer I shall report the progress which your nephew is making. I trust that by the end of the summer he will have been greatly improved by the military drills and out of door exercises which he has at Culver.

Very sincerely,

DILLON WALLACE,

Chief of Woodcraft Camp.

C. & O. TELEGRAPH OPERATORS GET INCREASE

Chesapeake and Ohio telegraph operators have received word that they have been granted a twelve per cent increase in pay.

The increase was a compromise reached in negotiations which have been in progress in Cincinnati for some time. The agreement was reached between the general manager, J. P. Stevens and a committee representing the railroad telegraphers' union. General superintendent L. B. Allen and Superintendent E. L. Beck have been attending the conferences, while the telegraphers were represented by L. E. Hicks, general chairman, and J. W. Kiser of Huntington, chairman of the local and general secretary and treasurer.

The telegraphers sought a thirty per cent increase and an eight hour day. The eight hour proposition was still unsettled yesterday, but the prospects are that this will be adjusted today with an agreement effective from July 1.

The telegraphers are now paid a minimum of \$76 and a maximum of \$95 per month. The wage concession is understood to be in the form of a lump sum increase.

Demands similar to those of Chesapeake and Ohio are to be made of the Hocking Valley railroad officials at Columbus, Ohio.

Mr. and Mrs. William Groppenbacher and children and Mrs. Ella Allen of East Second street left Saturday for an extended tour of the East. Before returning they will visit New York City, Washington, D. C., Norfolk, Va., and many other points of interest.

OUR COLORED CITIZENS

Mr. Allen P. Owens left Sunday on the early train for Cincinnati, where he will be met by Leiland V. Bunley to accompany him to his home in Columbus, Ohio, where he will spend the rest of his vacation.

All members of Pride of Mason Lodge No. 79 K. of P. are requested to meet tonight at 7:30 o'clock. Three candidates to be given the rank of Page.

E. PAYNE, C. C.

W. C. Patton, K. of R. & S.

The Department of the Civic Improvement Club will meet Tuesday afternoon at the office of Dr. W. C. Patton on East Second street. All members are requested to be present. Business of importance.

MISS SADIE BELL, President.

Mrs. Elizabeth Hall, Secretary.

There will be a gospel meeting given at the city park in East Maysville for the benefit of the East End Mission, commencing first Sunday in August, closing the third Sunday in August. Rev. W. H. Stevenson of Lexington, the financial secretary of State University of Louisville, Ky., will conduct this meeting.

MASON COUNTY COURT

A paper purporting to be the last will and testament of S. P. Shafer, deceased, was produced in the Mason Circuit Court Saturday and ordered filed. The due execution of said paper was proven by the testimony of J. S. Perkins and Charles B. Bean and was admitted to probate.

Mrs. Nancy E. Shafer was appointed executrix of Samuel E. Shafer, deceased, and she qualified as such with Omar Muse as surety on bond.

Mr. W. F. Steele, wife and daughter, Miss Nellie, returned home Saturday from a extended trip in Washington and other points in the East.

Benjamin Lloyd Anderson of this city held 23, the "skiddoo" number, in the big draft held Friday. Some folks think the Kaiser also held the same number.

A good way to win the war would be to mobilize the mothers and nurses as they know all about the INFANT.

At This Vacation Season

When so many people are going away from home, the matter of the safety of valuables is one of vital importance.

Neither your home nor your office is the proper place for a will, marriage certificates, deeds, mortgages, bonds, notes, stock certificates, life and fire insurance policies, jewelry, and many other essentially personal valuables. Put them into a safe deposit box in our new modern, fire and burglar proof vault.

The rental charges—less than one cent a day—for private boxes are reasonable, out of all proportion in fact, to the great amount of protection afforded and the peace of mind insured by the use of these facilities.
